

## Stream Of The River Short Reviews

### [Download PDF File](#)

#### **Stream Of The River**

Rivers are deeper than streams. River carries the sediments brought into it by streams into larger water bodies such as ocean or a lake. Unlike streams, rivers flow within wider banks. According to the Stream Order Classification of Waterways, something that is between sixth order and twelfth order is considered a river.

The Stream Order. It is estimated that over 80% of the world's waterways are these first through third order or headwater streams. Going up in size and strength, streams that are classified as fourth through sixth order are medium streams while anything larger (up to 12th order) is considered a river.
